3-STEP REPORTING PROCESS
We encourage employees, associates, clients, vendors or agents to speak up if they have questions or concerns as to what is the right thing to do in a particular situation or about potential violations of laws, regulations, policies, procedures or ethical conduct. No individual making a good faith report will be subject to retaliation.

Our associates have a duty to report promptly and in good faith any potential violations of law, regulations, policies, procedures or the Core Values in Action Standards of Responsible Conduct. In many cases, we have processes in place to resolve concerns or obtain answers to questions. The Compliance Program builds on those
processes. We encourage you to use existing processes when you can. We realize that no single resource can answer every question or issue. So, we created a three-step process to help resolve issues, answer questions or report concerns or possible violations.

1. If we have no process to address your concern or question, first talk with your supervisor or other managers in the organization. They may help you or refer you to others who can such as Human Resources staff (for issues about work conditions, discrimination or harassment); security staff (for issues about physical security, theft or abuse of property); and Quality Assurance or Risk Management staff (for clinical or regulatory concerns).

2. If the staff cannot help you, or if they are not a suitable resource for your concern, contact the Ensemble Chief Compliance Officer at 513-466-2295.

3. If the issue or question is still unresolved, or if you want to report a concern anonymously, call the 24-hour Ensemble Health Partners ReportLine at 1-844-604-9102 or log on to www.ensemblereportline.com to file a report using the Make a Report link. You may make a report without giving your name if you choose.
